Fire Pit

DIY - Demonstrated by
Mark Visser
Warm up with this
easy fire pit
Build your own Fire Pit
- the perfect addition to
any backyard or outdoor
entertaining area

1 Introduction

Everyone loves warming up in the cold, now you can build and enjoy your very own fire pit with a few materials and your Bosch tools.

**Required power tools:**
- Paint sprayer
- Cordless Drills
- PRA Multipower radio

**Other accessories:**

**Detailed material list:**

<table>

<td></td>
</tr>
</tbody>
</table>

2 Prepare your materials

Remove the washing basket from a washing machine and purchase some pot plant holders that suit the style and size of the basket

3 Mark out your lines

Evenly mark out where you want each leg to be positioned on the fire pit with a marker

4 Drill through the holes

Using a drill, make a hole through each of the marks areas
5  **Secure the legs**  
   Use a nut and bolt to secure the legs of the fire pit

6  **Spray the pit**  
   Once everything is in place, spray the fire pit with the PFS 2000 paint sprayer using a 'heat resistant paint'

7  **All Done!**
