

**Meet any challenge
flexibly.**

Regardless of whether routing, scraping, sawing, separating, cutting, sanding or polishing: The Bosch PMF multifunction tools can do simply everything. The versatile, easy-to-handle all-rounders, which allow fast accessory changing, are your problem-solvers for all kinds of improvement and renovation work.

MagnetHold for easy accessory changing
AutoClic for changing accessories in just 3 seconds
Great variety of accessories for maximum flexibility

Just imagine you wanted to renovate a whole room: Remove scraps of carpet, lay laminate flooring, fit tiles, shorten the door frame, sand window frames, cut skirting boards to length, saw recesses in wood or plasterboard, cut insulating material – and so on.

How many tools would you need? Simple: Just one. Because the new Bosch PMF 350 CES, 250 CES and 220 CE multifunction tools can meet any challenge. Regardless of whether you want to saw, sand, polish, rout, rasp, scrape or cut.

As versatile as your projects

Thanks to Starlock and StarlockPlus – the new Bosch range of accessories for oscillating tools – a large number of attachments is available. Always the right accessory tailored to any project.
